Your Sphere of Influence

by L. Ron Hubbard

We ourselves are keeping something in balance that is more important probably even than I understand. I know it's important. That is all I know.

If the future society cannot have men capable of sufficient responsibility to be entrusted with the tremendous weapons and violence of which the society is capable, then the society, the more it improves, the more it'll blow itself up. In other words, we've put a stop right on top of the society.

We have then, perforce, a police state. All we have are police, police, police. What are these police trying to do? They're trying to keep individuals from doing things. Why do they have to keep individuals from doing things? Because individuals are so irresponsible they're liable to do anything! And that's why a police state grows.

And what we are doing is the only impulse I know of in the society at this time which is actually directly and *straightly* pointed at the heart of the future police state.

In a society where individuals are free, where individuals can be rehabilitated, where individuals can still think, you can still have leadership.

One individual can be selected by other intelligent individuals to represent them, or one individual by his natural, native ability can at least control some sphere of the social order around him. And unless this social order is controlled, unless there is a sphere that a thetan can bring order into, you have nothing but chaos.

So all this beautifully planned advance will wind up in chaos, unless we do our job.

How about where Scientology influences things outside? Do you know that if you processed a very small percent of

"Where an individual is only capable of bringing disorder, there is disorder, whether he makes it disorderly or not."

the society that enough order would result from that action alone to bring sensible actions about on the part of the society. We're almost talking in terms of mysticism. It's not totally traceable. Where an individual is capable of bringing order, there is order, whether he brings it or not. Where an individual is only capable of bringing disorder, there is disorder, whether he makes it disorderly or not.

This idea of bringing order in an individual's own life and then have this order spring out on other perimeters broader than himself is an open-and-shut thing. I mean, we observe it.

That's why I say you don't have to clear everybody in the world. If you just released a bunch of people, something would happen. If you clear a few people in a town, what happens to the town? Not because these people are going around being very active, perhaps, but something happens, definitely something happens. A greater order is generated. We have a greater sphere of order occur as a result of this.

Life After NEW OT VIII, Truth Revealed

As you ascend The Bridge to OT, and this according to the many thousands who have, you become more and more aware, more and more able, more and more confident, in essence, more and more YOU! When you reach New OT VIII, Truth Revealed, you have stepped across a threshold taking you to into, as LRH put it, "...vistas never even dreamed of" and "...glories no past glory ever surpassed." One may wonder, however, what it is like to live life once one has returned to Earth from having done New OT VIII! Many have said it's the life they always dreamt of, many stated this was what they came into Scientology for, while still more have held that there is no state like it and no comparative for it. Here we take you to the other side of New OT VIII, where you can catch a glimpse of what your life might be like after this first of the actual OT levels.

"Back in the 'real world' with all my happiness and power, I began making battle plans and knocking out

one project after another. I felt no uncertainty or back-off and for the first time this lifetime, fear as I had always known it was gone.

"I waited to see if this 'glow' would diminish but it hasn't. The feelings settled and expanded and each day echoes with my most important wins from New OT VIII:

"I see and feel responsibility as I never had before. I know now that I could have always done more or done better. It was always up to me.

"Nothing around me can upset me for more than a minute or two as I am completely certain that I can do something about anything at will.

"I share my happiness with others and I see that there is always more to do. My goal is to find ways to help as many people as I possibly can to reach for and move up The Bridge as soon as possible.

"My path was not always a smooth one by any means, but I had one characteristic throughout and that was unwavering persistence on a given course.

"Life after New OT VIII? In one word, it is glorious. But it would be so much more glorious if my fellow man could feel what I feel. So there is much to do...." – D.K.

"After completing New OT VIII I knew I could create my life to be just what I wanted it to be. I wanted to be able to have the freedom to create in my area of responsibility and increase my earnings at the same time. Within six weeks of returning home I was offered an opportunity that was a perfect fit for what I wanted. I am doing very well in this new job. I am starting to establish ways to measure production so the company and the project can move into high levels of success using LRH's management technology.

"I am turning negatives to positives. This is the result of the simple addition of Theta to a scene. This is life as I've always wanted it to be." – G.C.

New OT VIII Completion Successes

"New OT VIII is a wonderful level! It is simple, powerful and so validating for a being!

"Now I feel really in present time with no attention on the past, and with a big interest in the future.

"Also I can be what I want to be, space, sky, clouds, people around me. The most beautiful thing for me was that I am myself again as a being. I have much more ARC for myself than I had ever before and moreover I discovered my truth.

"Now things are clear. I can observe and if it is true for me it is true without reservation. Later I can observe again and if it is not true anymore, it is not anymore. All the maybes disappeared. I am free to be right, also to be wrong. I have my truth.

"The Basics helped me to accomplish this level. While auditing on New OT VIII I was listening to the PDC lectures and believe me, this increased my understanding and my wins a lot more.

"Thanks to RTC for the Basics and keeping the tech pure.

"I have no words to express my gratitude to the man who made this possible. I will simply say, thank you, Ron." – V.F.

"This OT level completely changed my life. New OT VIII has been a build up of emotions and awareness. I can perceive everything around me because I am completely in present time. The past is the past, there is simply no more attention on

the past and not only that... everything that I thought 2 seconds ago is already part of the past, since I am in PT completely. I am ahead in the future a few minutes with my thoughts and so the future is already where I am operating from.

"New OT VIII is really the first OT level because it's directed completely at the being and directed to completely change you, your perceptions, your ARC, your space: your life! Now I know that nothing is impossible for me and that what I want to do I can obtain because my intention now is completely directed. Between me and the physical universe there's nothing, there's no barriers, there's no time.

"There are no other words to describe the big ARC I feel for every single person or thing on this planet. And there are no words to describe how it feels with all this power at hand. I can tell you this though: it's exactly like that and each one of you can do it. You just have to decide and everything changes!

"I want to thank RTC because it's thanks to the Basics that I could complete first New OT VII and now New OT VIII. They gave me the understanding of myself, how the physical universe works and how to break all the agreements.

"And last but not least my admiration goes to the person that allowed us to be able to go free with simplicity and let us find the way out: the road to infinity. To Ron." – G.D.
